

The background of the entire cover is a deep blue space filled with a complex network of golden-yellow points and thin, glowing lines, representing the cosmic web of galaxies and intergalactic matter. In the lower-left quadrant, there is a prominent, bright, circular lensing effect, showing a dense cluster of galaxies with a central bright core and concentric arcs of light, illustrating gravitational lensing.

DISTRIBUTION OF MATTER IN THE UNIVERSE

From Lensing Clusters to Large-Scale Structure
